

SHOOTING SHIRTS

As the club has grown there have been more and more requests for shooting shirts at many age levels. The KAYBC does **not** provide shooting shirts to players. It is the choice of each team to vote as to whether they want to make this additional investment individually. The position of the club is that an entire team will purchase shirts together, or no one on the team will get them. We do not want any player to feel left out over a shooting shirt. There is a provision that if the entire team wants them, but a case of hardship exists making it difficult for an individual to purchase a shirt, the coach or coordinator can speak to the President, Cathy Pearson, for a contribution on behalf of that player.

There are many companies that do custom order shooting shirts that range from \$50.00 to \$70.00 or more. This is quite expensive for youth level shirts, so Createch has found a company that has shirts in stock at an affordable price and will look good with our uniforms. When ordered big enough, most players get 3-4 years from the same shirt. A standardized shirt can be passed to younger siblings and even the opposite sex.

Below is a picture of the new shooting shirt we have selected for purchase by KAYBC teams.

All prices, including last name on back and tax, are \$26.00 and is due at the time of placing order with Createch.

It is to your advantage to be ordering the same shirt with the same logo for each team, year after year.

Createch will have samples of all sizes ranging from Youth Small to Adult 3XL by Monday, November 29th, to try on for size. For 3rd & 4th grades, I would recommend getting one now to last through 5th grade. Then in 6th grade they can get a new one to carry them through 8th grade.
